The Dennis Osahon Aikoriogie Foundation based in the United States and Nigeria has done much in carrying out several Medical Outreaches across Nigeria like Abuja, Edo State, Lagos etc but to mention a few including educational supplies, food Outreaches, financial support and scholarships to indigent students, widows and orphanage homes and street kids for the past years till now.

A recurring challenge that the nation has is the dwindling importance of crude oil in the global market which is our economic mainstay. Dr Osahon as Edo State Governor has the roadmap to diversify the State's economy from waiting for monthly allocations which prepares him adequately for a post oil economy, where states go cap-in-hand for monthly subversion.

A vote for Dr Dennis Osahon Aikoriogie on the platform of the National Rescue Movement (NRM) Party is a vote for the evolution of the State into colossal economic growth and development to plug into the Fourth Industrial Revolution and a knowledge driven economy as Dr Dennis Osahon Aikoriogie has the charisma to mobilize the best brains, both at home and in the Diaspora for this purpose.
